SUMMARY

Experienced Software Developer with a passion for crafting efficient and innovative solutions. With a proven track record of designing, developing, and implementing high-quality software applications, I excel in both front-end and back-end development. My expertise in various programming languages and frameworks, coupled with a strong problem-solving aptitude, enables me to create user-friendly and scalable products.

SKILLS

Languages	HTML5, CSS3, JavaScript, TypeScript, NodeJs, C#, PHP, SQL
Frameworks	Angular, ReactJs, Bootstrap, ExpressJs, .NET, Laravel
Databases	MySQL, MongoDB, Firebase
Tools	Docker, Figma, WordPress, Jira, SQL Server, Visual Studio
Source Control Management	Google Cloud Platform, Git, Heroku, CPanel, Apache
Soft Skills	Critical Thinking, Multi-tasking, Problem-Solving

EXPERIENCE

Software Developer — May 2022 - April 2023
SOTI Inc, Mississauga

- Collaborated with cross-functional teams in an agile environment to develop and implement new features for XSight, like Application Spotlight, which lets users analyze each app installed on their devices.
- Created well-designed UI components using Angular integrated with Backend services using .NET.
- Wrote REST APIs and Stored Procedures using .NET and SQL integrated with Database MySQL.
- Utilized Postman, and JUnit to support efficient development and testing and i18n for data formatting.
- Produced high-quality and detailed UI mock-ups, User Story Boards, and document process flows/rules.
- Participated in peer, code reviews and ensured high-quality, testable, and reusable code through integration and unit testing using Jasmine and Karma.

Full Stack Developer — April 2019 - April 2021
Mudrahome, New Delhi, India

- Developed, optimized and maintained the Mudrahome website with regular UI/UX enhancements.
- Designed responsive website layout/UI using standard HTML/CSS and JavaScript best practices.
- Worked on technologies ReactJs, WordPress for Frontend and PHP Laravel for Backend.
- Resolved and debugged software defects and performance issues across multiple technology stacks.
- Collaborated with product managers and teams to understand user behaviour and customer requirements.
- Worked with the team to give design feedback, assess development velocity and remove roadblocks.

Software Developer — July 2018 - April 2019
Wipro, Greater Noida, India

- Developed code to incorporate various features and functionalities of moderate complexity.
- Documented the software design, codebase, and technical specifications to facilitate future maintenance, updates, and troubleshooting.
- Created well-designed UI components using Angular integrated with Backend services using NodeJs.
- Managed and optimized database systems to support efficient data storage, retrieval, and scalability.

PROJECTS

Eazy Survey | Angular, HTML, CSS, JavaScript, .NET, SQL   July 2022 - August 2022

· Collaborated in a team of 4 to develop a user-friendly web application that allows administrators to create and manage surveys while at the same time, users can take the surveys made by the administrators.
· Created features such as survey creation, management, and user authentication to deliver a fully functional app.
· Used Angular for front-end and Entity Framework to facilitate interaction with the MS SQL database for user, survey management, and data storage.

Pizza Zunction | Laravel, HTML, CSS, JavaScript, SQL   January 2021 - April 2021

· Developed a web application for a Restaurant to display the products, and services they offer.
· Created online food ordering system that allows users to order food online and track their orders.
· Developed an Admin Dashboard to add and manage items for the restaurant menu.
· Used Laravel for development and HTML, CSS, and JavaScript for the front end with database MySQL.

My Credential | Laravel, HTML, CSS, JavaScript, SQL   August 2020 - December 2020

· Developed a Dynamic web application that allows users to create profiles online with professional details like services offered by them and projects they have done.
· Created a feature to make user's profile shareable, online through social media with a dynamic link.
· Integrated PayPal for handling online payment and added functionality to generate invoices and downloadable as PDF.
· Used Laravel for development and HTML, CSS, and JavaScript for the front end with database MySQL.

Shoperkart | Laravel, HTML, CSS, JavaScript, SQL   August 2020 - December 2020

· Developed an E-commerce web application that allows retailers to create their stores online for business.
· Developed a feature to upload data through CSV.
· Created Authentication and Dashboard for Retailer and customer.
· Used Laravel for development and HTML, CSS, and JavaScript for the front end with database MySQL.

ACCOMPLISHMENTS

· Successfully led a cross-functional team to deliver a complex software project ahead of schedule, meeting all requirements and exceeding client expectations.
· Optimized critical sections of a legacy application, resulting in a 30 percent reduction in response times and significantly improved user experience.
· Introduced a new feature that significantly improved user engagement and retention, resulting in a 20 percent increase in daily active users within the first month of release.

EDUCATION

Post-Graduate Certificate in Mobile Application Development   January 2021 - August 2022
Lambton College, Toronto, Canada

Bachelor's in Computer Engineering   August 2015 - June 2018
GNDIT, New Delhi, India

CERTIFICATIONS

Coursera   HTML5, Python, PHP, Scratch Coding
